

## Pneumatic Actuator VBA

The latest innovation in EGMO's actuating technology is the pneumatic actuator VBA.

The VBA is fitted with a position indicator as standard and an option for twin M12 proximity switch. Easily assemble when a control top is required.

### Features and Benefits

- ✓ Flexible - Same model with multiple control options
- ✓ Improved safety due to cover of the position indicator
- ✓ Direct drive - Direct connection between the valve and the actuator
- ✓ Higher efficiency achieved with minimum air leakage
- ✓ Stainless steel brackets - adjustable installation for various valve types
- ✓ Visual indicator
- ✓ Proximity switch
- ✓ Control head

### Technical Information

#### Operating modules

- ✓ 1" - 4" Butterfly Valves

#### Operating Pressure

- ✓ 5-10 Bar / 72.5-145 Psi

#### Control head

- ✓ 24V
- ✓ ASI BUS

# New Product Announcement

## Ordering Information

Item No.	Egmo System Name	Description
520-00057	ACT-VBA	ACTUATOR SPRING RETURN + VISUAL INDICATOR*
Part number coming soon. See VMON Literature		CONTROL HEAD ASI BUS
624-10173	ACT-VBA-VMON-KIT-24VDC	CONTROL HEAD 24 V
520-00039	ACT-VBA-VISKIT	VISUAL INDICATOR KIT
520-00054	51-BVP-VBA-BRACKET-1.0-2.5	BUTTERFLY VALVE BRACKET 1"-2.5"
520-00055	51-BVP-VBA-BRACKET-3.0	BUTTERFLY VALVE BRACKET 3"
520-00056	51-BVP-VBA-BRACKET-4.0	BUTTERFLY VALVE BRACKET 4"
